OIL, GAS, MARINE
AND CIVIL ENGINEERING INDUSTRY**

ABOUT US

**Ikiofie Prince Campbell, BA, MA, FNIA, ANIPR
MD/CEO**

“ At IX Synergy Global Services Limited, our vision is to stand as the benchmark of excellence in our industry; leading with innovation, dominating in our areas of expertise, and maintaining a strong edge over competition. Our mission is to deliver outstanding performance by driving operational excellence, exceeding customer expectations, and achieving sustainable financial growth. ”

IX Synergy Global Services Limited is a proudly indigenous Nigerian company, operating in Nigeria and across the West African sub-region under the IX Energy Group since 2012. With our corporate office in Lagos, alongside a dedicated Maintenance & Training Centre and a Fabrication Yard in Port Harcourt, we are strategically positioned to serve our clients effectively.

We provide a wide range of services including Engineering, Procurement, Construction, Onshore and Offshore Installations, Operations and Maintenance of Oil and Gas Facilities, Drilling and Drilling Services, Equipment Supply and Maintenance, Integrated Marine Logistics and Subsea Services, as well as specialized Training solutions.

All our operations are guided by international best practices, and we hold certifications that affirm our commitment to quality, safety, and excellence, including:

ISO 9001:2015 (QMS)
ISO 45001:2018 (OHSMS)
ISO 14001:2015 (EMS)

CORE VALUES

INTEGRITY

We conduct our business with honesty, transparency, at the highest ethical standards. We value trust and integrity in our interactions with clients, partners, employees, and the communities in which we operate. We believe that integrity is the foundation of sustainable success.

ACCOUNTABILITY

We embrace accountability as a fundamental core value that underpins our operations and relationships. We take ownership and hold each other accountable, which is essential for personal and organizational growth.

SAFETY

Safety is our top priority. We are dedicated to ensuring the safety and well being of our employees, clients and the environment.

INNOVATION

We are resilient and adapt to change by continuously learning and doing new things. We find alternative and creative solutions to challenges that create value for the business.

PEOPLE

We show respect to our employees and clients, We value our employees as our most valuable assets by rewarding performance. We are focused, disciplined and committed to working together for the success of the business.

Rivers State, Nigeria

ENGINEERING OFFICE

SERVICES

Engineering

Innovative, precise, and driven by real-world impact — our engineering team transforms ideas into reliable, cutting-edge solutions.

Procurement

Streamlining supply with integrity and efficiency; our procurement team ensures timely, cost-effective sourcing to keep projects moving forward.

Construction

From concept to completion, we deliver quality builds with precision, safety, and a commitment to excellence at every stage.

Installation

Seamless integration, expert execution; our team ensures every component is installed safely, efficiently, and to the highest standards.

Operations and Maintenance

Reliable upkeep, peak performance; we ensure your assets run efficiently, safely, and without interruption.

Drilling and Drilling Services

We deliver safe and efficient drilling solutions for onshore and offshore projects. Our expertise ensures reliable, cost-effective operations.

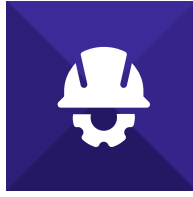

Valve and Safety Systems Maintenance

We ensure the integrity and reliability of critical valve and safety systems through expert inspection, servicing, and repairs. Our solutions enhance safety, minimize downtime, and extend equipment life.

Training

We invest in training and manpower development to build a skilled, motivated workforce committed to excellence.

ENGINEERING

Our engineering design expertise enables us to provide complete, innovative solutions to complex challenges. Our services include:

- Concept Selection
- F.E.E.D (Front End Engineering Design)
- D.E.D (Detailed Engineering Design)
- Follow-On Engineering

Execution:

Since engineers are responsible for ensuring proper construction and implementation of their designs, some form of engineering oversight is typically required during the execution phase.

PROCUREMENT

Affiliated with globally recognized Original Equipment Manufacturers (OEMs) such as Blackline Safety, Beamex, Drexel Brook, GSI Guaging Systems Inc, Honeywell, Industrial Scientific, Canty Process Technologies, Kenexis, Rheonix, ABB, Badger Meter, Baumer, UZTEL SA and VALVOTECNICAL LOBMARDA.

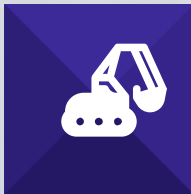

Our services span the Oil & Gas, Petrochemical, Energy, Marine, FMCG, and other sectors. At IX SYNERGY GLOBAL SERVICES, we are dedicated to creating value for our clients, with reliability of supply as a key priority.

We recognize that poor-quality inputs, delayed deliveries, or unexpected costs can affect both productivity and profitability. More critically, in industries like Oil & Gas, substandard supplies can compromise safety; a factor we treat with the utmost importance.

● Our Procurement Services include:

- **Strategic Sourcing**
- **Procurement Consulting**
- **Ordering**
- **Supplier Identification and Qualification**
- **Expediting**
- **Consolidation**
- **Vendor Performance Evaluation**
- **Inspection**

CONSTRUCTION

At IX SYNERGY GLOBAL SERVICES LIMITED, our engineers, design architects, and technicians work hand in hand with clients to conceptualize, plan, and execute diverse construction projects in line with global standards for the oil and gas industry.

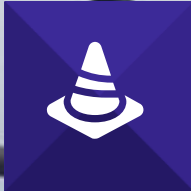

For each unique project, we identify the most effective solutions by carefully considering manpower, materials, and equipment requirements. This approach ensures efficient execution while delivering real value that supports our clients' business objectives.

Through our strong procurement network, we guarantee access to high-quality materials at competitive market rates, ensuring cost efficiency without compromising on quality.

Our capabilities include:

- Offshore and Onshore Fabrication
- Subsea Structures
- Onshore, Offshore, Shallow water and Swamp Pipelines
- Cost estimation
- Project scheduling
- Design decision-making
- Handling of construction materials
- Permits and licences
- Quality assurance/Quality control (QA/QC)
- Document Control
- Reporting
- Logistics

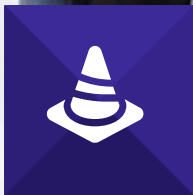

INSTALLATIONS (OFFSHORE AND ONSHORE)

OUR OFFSHORE INSTALLATION SERVICES COVER:

- Subsea Pipelines, Risers, and Facilities**
- Subsea Flexible / Cable Installation**
- Offshore Pipelines and End Stations**
- Modular Processing Skids**
- Pump and Meter Stations**
- Pressure Vessels**
- Gas Compression Systems**
- Process Facility Installation**
- Piping Installation**

INSTALLATIONS (OFFSHORE AND ONSHORE)

Our onshore installation services include;
Facility Shutdowns and Maintenance Programs
Development of Infrastructures
Brownfield Maintenance and Modifications
Commissioning & DeCommissioning

EQUIPMENT SUPPLY AND MAINTENANCE SERVICES

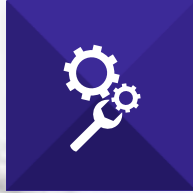

At IX SYNERGY GLOBAL SERVICES, our technologically advanced equipment and highly trained engineers and technicians give us a strong edge in delivering reliable maintenance services across the Oil & Gas, Marine, Petrochemical, and other industries.

We are proud of our team of certified instrument technicians, equipped with the expertise and tools required to provide world-class testing and calibration services.

With our state-of-the-art facilities, we deliver a wide range of specialized maintenance solutions, including:

- **Valve Maintenance and Repairs**
- **Calibration Services**
- **Hydro Testing**
- **Pumps**
- **Wellheads**
- **Christmas Trees**

OPERATION AND MAINTENANCE SERVICES

IX SYNERGY GLOBAL SERVICES specializes in delivering comprehensive Operations and Maintenance (O&M) services to the energy industry, with a strong commitment to meeting client goals on cost, quality, schedule, and safety.

Our solutions are designed to be cost-effective without compromising on performance or reliability. Backed by a team of dedicated professionals, we ensure efficient execution of O&M activities, minimizing downtime while maximizing operational productivity.

Safety remains our top priority. We uphold strict protocols to safeguard both personnel and assets while ensuring seamless operations.

By combining deep industry expertise, advanced technologies, and global best practices, **IX SYNERGY GLOBAL SERVICES** consistently provides O&M services that exceed client expectations in terms of competitiveness, quality, timeliness, and safety.

Some of our services provided are:

- Crewing
- Technical Management
- Cost Control/ Management
- Supplies of Provisions and Stores
- Surveys/Consultancy Services &
- Statutory Vessel Inspections by recognised authority.
- Oil Pollution Control - Contingency
- Response Plan
- Quality Assurance-
- Onboard Safety Audi
- Planned & Predictive Maintenance
- IACS Classification
- Well Services
- Analysis
- HSSE Plan, Coordinating and Implementation of all Health, Safety, Security and Environmental Policies,
- Reports/Meetings
- Asset Integrity Management
- Catering Services
- Computer Maintenance
- Management System (CMMS), Risk

FABRICATION

At IX SYNERGY GLOBAL SERVICES LIMITED, we take pride in our flexible and innovative approach, enabling us to deliver a wide range of fabrication, welding, and structural repair solutions across Nigeria.

With a highly skilled workforce and a proven track record, we consistently meet client requirements on schedule. Health, Safety, and Environment (HSE) are integral to our culture, as we recognize that safety is the responsibility of the entire company system—not just a department.

We offer a full range of Fabrication and Structural Repair services, such as:

- **Piping Engineering and Fabrication**
- **Specialist welding systems such as Cladding and structural repairs**
- **Spools**
- **Skids**

MARINE & OFFSHORE SERVICES

IX SYNERGY GLOBAL SERVICES provides specialized marine support services including subsea inspection, surveys, pipeline mapping, structural repairs, SURF installation, and the installation of subsea pipes, risers, flowlines, and umbilicals.

Our goal is to be a leading provider of integrated subsea services along the West African coast, offering comprehensive solutions in engineering, procurement, subsea construction, installation, specialist survey, inspection, repair, and maintenance (IRM).

IX SYNERGY GLOBAL SERVICES is proud to partner with Allseas Group S.A., a global leader in offshore and subsea operations. This strategic collaboration strengthens our capabilities across both deepwater and shallow in-shore operations, ensuring we deliver comprehensive solutions for complex offshore challenges.

Through this partnership, we extend our expertise across engineering, subsea construction, flexible risers, flowlines, marine hoses, offloading systems, mooring systems, and associated marine and subsea technologies. Together, we bring unmatched strength and depth to all offshore and subsea projects.

VALVE MAINTENANCE SERVICES

At IX SYNERGY GLOBAL SERVICES, we help clients reduce capital expenditure on valves by providing expert servicing and repairs—eliminating the need to purchase new valves when maintenance is sufficient.

We offer complete valve services both on-site and off-site, covering everything from consultation to full strip-down, repair, and overhaul.

Our Valve Services include:

- **Safety Relief Valve Testing, overhaul and calibration.**
- **Control valve & Actuator, servicing overhaul**
- **Testing and calibration**
- **Complete overhaul & testing of Gate /Globe / Check / Ball Needle / Butterfly/ Diaphragm/Plug/Non Return valves / Pressure Reducing valves and Knife edge**
- **Gate valves.**
- **Overhaul of Petitioners. Mobile workshop facilities**
- **Call out repairs Planned Periodic Maintenance. Shut down Maintenance, Inspections,**
- **Surveys**
- **Spare Parts Management**

DRILLING AND DRILLING SERVICES

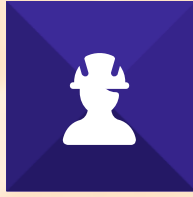

At **IX SYNERGY GLOBAL SERVICES** we partner with the best in Africa and beyond, **EA JOGAS** and **MELVON NIGERIA LIMITED** to provide safe, reliable, and efficient drilling solutions for both onshore and offshore projects. Our services are designed to optimize performance, reduce downtime, and ensure cost-effectiveness without compromising on quality or safety.

Backed by advanced technology and a team of experienced professionals, we deliver end-to-end drilling support that meets international standards and client-specific requirements.

Our drilling services encompasses:

- **Piling Conductor Services**
- **Brine Filtration Services**
- **Tubular Running services (TRS)**
- **Cold Cutting Services**
- **Wellborne Cleaning**

TRAINING

Training is the pathway to developing skilled behaviour, and this philosophy forms the foundation of our dedicated, tailor-made training modules.

At IX SYNERGY GLOBAL SERVICES, our approach to competence development enables us to identify and support our clients in building a safer, more efficient, and highly competent workforce. We work closely with contracting companies, fully aligning with their recruitment needs and programs.

To meet these demands, our courses are designed to match industry requirements, giving participants the best opportunity to secure positions. Successful candidates are automatically enrolled in our industry-leading Competence Management Programme and granted access to advanced training packages.

Our training courses include:

- **Emergency Response Training**
- **NDT Inspection Training**

PROJECTS AND ACHIEVEMENTS

TOTAL ENERGIES CONSTRUCTION OF OLT SUCTION PILES

CHEVRON AGBAMI FACILITY MAINTENANCE

EXXON MOBIL USAN PRP

PROJECTS LIST

Client: Energy Works Technology/
Total Energies

Projects:

OLT Suction Piles for EGINA UFR Project

Status: Completed

Fabrication Of Pressure Vessels And Process Modules For TOTAL Nig. Plc, EGINA FPSO

Status: Completed

Upgrade of Jones Creek & Odidi Flow Station From 2 Phase to 3 Phase for OML-42

Water Management Project

Status: Completed

IDOHO BP Structural Integrity Repair Project

Status: Completed

Fabrication of Pig Launcher, Pig Receiver, Open Drain and Closed Drain For Ikike Project

Status: Completed

Knock-Out Drum Vessel for EGINA Project

Status: Completed

Client: Energia Limited

Projects:

Upgrade of Production Field and Water Separator

Status: Completed

Client: Ripen Marine Contractors

Projects:

Fabrication of Calm Buoy Clamp and Loading Pad

Status: Completed

Client: Saipem Contracting Nigeria Limited

Projects:

Supply of Civil Materials to Ogbotobo, Beneside, Opukushi and Tunu For SSAGS (Sourthern Swamp Associated Gas Solution Project)

Status: Completed

Supplies Of Ago (Automotive Gas Oil) For NLNG Train 7 Project Bonny Island

Status: Completed

Client: LES Energy Services Ltd.

Projects:

Supply of Fabrication Pipes, Consumables and Equipment for USAN & ERHA Exxon Mobil Project

Status: Completed

Supply of Consumables and Equipment For Idoho & Edop, Exxon Mobil Project

Status: Completed

Supplies of Scaffolding Equipment and Materials for Shutdown Activities

Status: Ongoing

PROJECTS LIST

Client: OilServ

Projects:

Fabrication of Pressure Vessels and Process Modules For NNPC OB3 Lot B

Status: Completed

AKK(Ajaokuta–Kaduna–Kano Natural Gas Pipeline Gas Pipeline Project) Installation of 40 Inch x 303.4km Main Line and 24 Inch x 15km Spur Line of AKK Gas Pipeline Project (12"x 28km)

Status: Ongoing

Installation of ASSA Gas Pipeline Project of (12" X 28km)

Status: Ongoing

Client: AITEO EASTERN E&P COMPANY LIMITED

Projects:

Provision of 100 Man House Boats, Tug Boats, Barges, Crew, GSF and Offshore Support

Status: Completed

Client: PFL ENGINEERING SERVICES

Projects:

Supply of Blasting, Painting and Coating Materials for Agbami Fpso

Status: Ongoing

Client: RENAISSANCE AFRICA ENERGY COMPANY LTD

Projects:

Procurement and Installation of Four Autosamplers to SPDC Location: AGBADA 1, AGBADA 2, OBIGBO & UMECHEM

Status: Completed

PROJECTS LIST

Client: SPDC

Projects:

Front View of ADDAX 3
Phase Test Separator Vessel

Status: Completed

90mm Thick Stainless Steel Clad
Separator for Soku Nag Compression
Project

Status: Completed

Project

OPUC 1 - V - 4611

OPUC 1 - V - 4621

OPUC 1 - V - 6401

Status: Completed

Client: CHEVRON

Projects:

Provision of Security Vessels,
Crew, GSF and Offshore Support

Status: Completed

Client: NIGERIA LNG LIMITED

Projects:

Provision of Fabric Maintenance Services;
Maintenance Services for Coating, Insulation
and Fireproofing Systems on Piping
and Equipment with NLNG Facilities

Status: Completed

Client: Total Energies Nigeria

Manufacture of Pressure Vessels
and Process Modules for Total Nigeria Plc
EGINA FPSO as a Subcontractor to
Samsung Heavy Industries
Nigeria Limited.

Status: Completed

TO VZ 7521

Status: Completed

TOVZ 7002

Status: Completed

Provision of Security Vessels, Crew,
GSF and Offshore Support

Status: Completed

Completed Pressure Vessel for DOMGAS
Project HP Flare ILO Vessel (V-4301),
HP Flare ILO Vessel (V-4302)

Status: Completed

ADDAX 3: Phase Test Separator Vessel

Status: Completed

Client: HEIRS ENERGIES

Projects:

Installation of LACTS Units (Lease
Automated Custody Transfer Systems) for
4 HEL OML 17 Production Facilities:

Agbada 1 Flowstation

Umuchem Flowstation

Obigbo North Flowstation

Status: Completed
